PITT MED PROFESSIONALISM ACCOLADE

LILY BESSETTE

MSTP Longitudinal Experience Student

"Lily was incredibly helpful giving me advice when I started my surgical rotation. She went above and beyond to answer all my questions, provided amazing advice, sent reference articles, and even spent time drawing diagrams to explain complex concepts. She helped me feel prepared for the first day of my rotation and said, "I just want you to shine". I'm very thankful to have a classmate who goes the extra mile to help her peers."
