PITT MED PROFESSIONALISM ACCOLADE

AMANDA ZHOU, MD

PGY2 Resident
Department of Psychiatry
General Psychiatry Program (WPIC)

"I was fortunate enough to spend a month with Amanda as my resident on Child Psych. It was one of my favorite clerkships and put Psychiatry on my differential for specialty choices. She was kind, compassionate, and extremely helpful. She gave me direct feedback in real time that allowed me to grow a great deal during my time with her, and by the end of the clerkship I felt really proud of where I had gotten. It was an awesome month and any student would be lucky to learn from her."
