PITT MED PROFESSIONALISM ACCOLADE

PRIYA CARDONE, DO

Clinical Assistant Professor of Neurology
Department of Neurology

"Dr. Cardone is an exceptional educator and physician. Despite her busy clinic, she dedicates time to teaching third-year medical students about movement disorders and is always available to answer questions. She emphasizes the importance of taking comprehensive and relevant patient histories, a skill that will be valuable across all rotations. She truly embodies the core values of Pitt Med, particularly in patient care. She has developed strong trust and rapport with her patients, which is something I aspire to achieve in the future. Dr. Cardone has created a welcoming environment for students in Neurology and serves as an outstanding clinician-educator. Thank you Dr. Cardone!"
