PITT MED PROFESSIONALISM ACCOLADE

CHLOE SCHOCKLING, MD

PGY2 Resident
Department of Pediatrics
General Pediatrics Program (CHP)

"Chloe is an amazing resident to work with! …
Chloe empowers students by fostering independence in clinical encounters—encouraging us to lead patient interviews, conduct thorough physical examinations, and develop well-founded assessments and plan before presenting to an attending. Her ability to cultivate a safe, welcoming, and supportive environment makes her an outstanding educator…I was inspired by her skill in quickly building rapport and championing the needs of her patients. Her dedication and empathetic approach are qualities I deeply admire and aspire to emulate in my future practice."
