

# Pitt Med Professionalism Accolade

## CONGRATULATIONS!

**Cheeho “James” Kim**

**MS1 Student**

...Balancing all that the students do is a challenge. James seems to be doing that well and being conscientious about staying connected and communicating with people in his orbit. Furthermore, James' maturity was evident to me in retrospect because while he was apparently doing a lot of work outside of class, he was present, and participated well in small group. That is a service to his peers that I appreciate.
